

Fischer Market Place Plaza

Apple Valley ReadyMix, Apple Valley, Minnesota

The plaza was designed as a memorial to the Late Mr. Fischer and utilized a remnant quarry rock as a central fountain feature. Other features included:

- seating planter walls
- decorative concrete paving demonstrating AVR products.
- decorative ballard lighting
- wood arbor (not constructed)
- corner monument sign

I&A worked directly with the Fischer family and in conjunction with project architects and construction supervisor. The project was completed in Summer, 2003
